PROFESSIONAL SUMMARY

BSc Computer Science graduate from the University of Debrecen with a strong foundation in software development, technical support, troubleshooting, databases, web technologies, and customer-facing business systems. Skilled in Java, Python, JavaScript, TypeScript, SQL, REST APIs, Git, debugging, documentation, and problem solving. Experienced in technical support, CRM/ERP systems, e-commerce support, order management, warranty workflows, and cross-functional communication. Open to junior software engineering, backend development, full-stack development, IT support, technical support, application support, customer support, operations, and technology-related roles in Hungary, the EU, and remote environments.

TARGET ROLES

Junior Software Engineer | Junior Backend Developer | Junior Full-Stack Developer | Java Developer | Python Developer | IT Support Specialist | Technical Support Engineer | Application Support Analyst | Customer Support Specialist | E-commerce Support Specialist | Operations / Admin Support | Data / GIS / Automation Assistant

CORE SKILLS

- **Software Development:** Java, Python, C++, JavaScript, TypeScript, SQL, HTML5, CSS3
- **Backend & APIs:** Node.js, Express.js, REST APIs, API integration, CRUD workflows, authentication basics, validation, error handling, JSON import/export
- **Frontend:** React, responsive web design, component-based UI, forms, dashboards, portfolio websites, browser extension concepts
- **Databases:** PostgreSQL, MySQL, SQLite, SQL/PLSQL, relational data modeling, query writing, database-backed applications
- **Tools & Platforms:** Git, GitHub, Docker basics, Linux/Unix fundamentals, VS Code, IntelliJ IDEA, Postman, QGIS, Qt Designer, Microsoft Excel
- **Technical Support Tools:** Zendesk, CRM systems, Qianyi ERP, SAP, Salesforce, Commerce Cloud, CyberSource, PKMS
- **Engineering Practices:** Object-Oriented Programming, data structures, algorithms, debugging, clean code, documentation, unit testing fundamentals, JUnit basics, Agile/Scrum awareness, UML
- **Professional Skills:** Technical troubleshooting, customer support, issue investigation, root-cause analysis, documentation, ticket handling, escalation management, communication, teamwork, time management, attention to detail

TECHNICAL PROJECTS

QGIS Data Refinement Plugin - Thesis Project | *Python, PyQGIS, Qt Designer, QGIS Plugin Framework*

- Developed a QGIS plugin for geospatial data cleaning, null-value management, and custom value editing.
- Implemented logic to detect columns with excessive missing values based on user-defined thresholds.
- Built functions for numeric ranges, text values, and date-field transformations while preserving original datasets through a non-destructive output-layer workflow.
- Strengthened Python scripting, GIS automation, UI-driven workflows, data quality improvement, and technical documentation skills.

Portfolio Website | *React, JavaScript, HTML, CSS*

- Created a personal developer portfolio to present education, skills, work experience, software projects, contact information, and career goals.
- Designed content for software development, backend, full-stack, technical support, AI automation, and GIS-related applications.
- Focused on responsive layout, professional branding, and clear project descriptions.

AI Job Tracker & Resume Tailoring App - In Development | *React, Node.js/Express, PostgreSQL/Supabase Concepts, OpenAI API, JSON Import/Export*

- Designed a workflow to import job data from JSON files and track applications from discovery to applied status.

- Planned features for match scoring, missing skill analysis, tailored resume generation, cover letter generation, apply-link access, and application status tracking.
- Modeled data fields such as title, company, location, work mode, salary, deadline, apply link, status, and generated documents.

LinkedIn Job Scraper Chrome Extension - In Development | *JavaScript, Chrome Extension APIs, JSON Export*

- Designed a Chrome extension concept to extract job information from job pages and export it in JSON format.
- Target data includes job title, company, location, remote/hybrid/onsite status, salary, posted date, deadline, apply link, and job description.
- Relevant to browser automation, DOM parsing, data extraction, and productivity tooling.

API Analytics Dashboard | *React, JavaScript/TypeScript, Node.js, REST APIs*

- Built an API-driven dashboard concept with loading states, error handling, retry/fallback messages, caching, summary cards, filters, and charts.
- Practiced reusable service-layer logic and clean frontend/backend communication for internal tools and business decision-support applications.

PROFESSIONAL EXPERIENCE

Technical Support Analyst | EcoFlow / transcosmos

Debrecen, Hungary | November 2023 - Present

- Diagnose and resolve technical issues involving EcoFlow devices, firmware guidance, connectivity, app configuration, account setup, installations, data corrections, and system configuration.
- Support customers through phone, email, chat, and remote troubleshooting channels while maintaining clear documentation and professional follow-up.
- Use Zendesk, CRM tools, Qianyi ERP, Excel, and internal systems to investigate orders, warranties, RMAs, service requests, escalations, and technical cases.
- Work with product-related issues involving River, River 2, Delta Max, Delta Pro, Delta Pro Max, Delta 2 Max, Delta 3/3 Plus, Wave 2, Smart Home Panel 2, Power Kits, solar panels, and accessories.
- Analyze symptoms, isolate possible root causes, verify system data, document troubleshooting steps, and escalate complex cases when required.
- Support order processing, shipping updates, logistics coordination, warehouse-related checks, replenishment issues, and customer follow-ups.
- Advise on technical concepts including firmware updates, MPPT/DC-DC board behavior, AC/DC behavior, X-Boost, XT60/XT60i connectors, and certification-related information such as UL, CE, FCC, RoHS, and TELEC.
- Developed strong production-support habits including ownership, structured debugging, documentation discipline, and clear communication with technical and non-technical users.

Customer Support Representative - Technical & E-commerce Support | Fossil Group / transcosmos

Debrecen, Hungary | September 2022 - September 2023

- Handled e-commerce, repairs, wearable-device support, warranty cases, order checks, payment-related issues, and customer service workflows.
- Used SAP, Salesforce, Commerce Cloud, CyberSource, PKMS, CRM systems, and ticketing tools to manage customer cases and business operations.
- Maintained accurate records for customer interactions, repairs, returns, order updates, and warranty cases.
- Collaborated with internal teams to resolve customer issues and support daily service operations.
- Strengthened communication, problem-solving, case management, and business-process understanding.

Branch Manager | Kohinoor Bazar

Debrecen, Hungary | May 2023 - September 2023

- Managed daily branch operations, stock control, customer service, promotions, and financial tracking.
- Supported sales, inventory planning, supplier coordination, and practical decision-making in a small-business environment.
- Handled customer concerns, improved store organization, and contributed to smooth daily operations.
- Built leadership, responsibility, communication, and operational management skills.

EDUCATION

Bachelor of Science in Computer Science | University of Debrecen

Debrecen, Hungary | September 2020 - June 2026

- Thesis: QGIS Data Refinement Plugin: Null Value Management & Custom Value Editing Using Python in QGIS.
- Relevant areas: Software Engineering, Object-Oriented Programming, Databases, Data Structures, Algorithms, Web Development, Testing Fundamentals, UML, Artificial Intelligence Fundamentals, Linux/Unix Tools, GIS, Python Scripting.

Intermediate / FSc Non-Medical | Govt. Post Graduate College Kot Sultan

Pakistan | August 2016 - September 2018

Matriculation - Science | Shaheen Ideal Public High School

Pakistan | July 2014 - July 2016

CERTIFICATIONS & PROGRAMS

- Java Programming: Complete Beginner to Advanced
- Cisco Certified Network Associate v7.02 SRWE
- MUZLI Entrepreneurship Skill Development Scholarship Programme - Certificate

AWARDS & HONORS

- Stipendium Hungaricum Scholarship
- 1st Position in FSc Non-Medical
- Student of the Year Award
- Prime Minister's Laptop Award

LANGUAGES

- English: C1 / Professional Working Proficiency
- Urdu: Native / C2
- Hungarian: Basic

ADDITIONAL STRENGTHS

- Strong troubleshooting and debugging mindset.
- Comfortable learning new technologies quickly.
- Experience with both software and customer-facing technical environments.
- Good understanding of real user problems and business workflows.
- Able to communicate technical information clearly.
- Comfortable with documentation, ticketing, structured follow-up, and cross-functional collaboration.
- Motivated to grow in software engineering, backend development, full-stack development, IT support, and technical operations.

AVAILABILITY

Available for full-time, part-time, hybrid, onsite, and remote opportunities. Open to roles in Debrecen, Budapest, Hungary, EU, and remote CET-aligned positions. Salary expectation: Negotiable based on role, responsibilities, and package.
